*The purpose of the ' Portfolio Project is to foster new work, place original works in private and public collections, and to promote a wider understanding of original Art works. We believe that artists deserve compensation for their work. To encourage people of all backgrounds and income levels to collect original work of Art.*

*We are glad to inform that we have received more than 300 artworks from around 55 senior and upcoming participating artists. It would be a great pleasure to view a compiled mixture of eminent works and would be a great budget takeaway.*
