"Drawing An Act Of Art" is a show dedicated to the intimate Act of Drawing There is a Physical intimacy and bodily vibrations that become vital part of the image, which are drawn with the human hand. Drawing are the basis and roots of every work of art; some are an end in themselves.

The invincible photo shop, the mouse and the miracle that it does to the visual world, can do and undo the entire concept of drawing breaking all the rules in the book.

The charm of the digital system notwithstanding, this exhibition is an attempt at reassuring the power of drawings as a human act of art. We hope you enjoy this act and experience with us.

Thanking you,

Priyasri Patodia
